

PRIMARY ELECTION LAW TO BE CENTER OF ASSEMBLY FIGHT

SPECIAL SESSION OF LEGISLATURE WAS CONVENED AT SPRINGFIELD

BARELY A QUORUM PRESENT

Gov. Dunne's Message Deals With Appropriations And Executive Power

(Associated Press)

Springfield, Ill., Nov. 22.—The extra session of the General Assembly opened with barely a quorum present. The primary election law, which Gov. Dunne wishes amended, is expected to be the center of a political squabble. The Sullivan faction of democrats and the Deeney wing of the republicans, it is said, will attempt to have ward committeemen in Chicago elected at the April primaries instead of in September. Control of the Cook county organizations and through them the state organizations is the goal aimed at.

Springfield, Nov. 22.—Gov. Edward J. Dunne in his message to a special session of the Illinois legislature, which assembled today to rectify the errors of the appropriation made at the last regular session, recommended various appropriations and requested an extension of the governor's power to balance his responsibility.

The governor asserted in his message that if the chief executive were to be held responsible for excessive expenditures, he should have more power to suggest appropriations and to control bills thereon. Gov. Dunne cited the recommendation of the recent constitution convention of New York that the people adopt a constitution amendment, giving the right to the governor to originate all appropriation bills in the administrative departments of the state government and added:

"If it were possible to propose such a constitutional amendment at the present time in this state, I would recommend to your honorable body the proposals of an amendment of this character, giving such power to the governor." The governor points out that the proposal of another amendment by the last legislature precludes such a proposal and asks as the best possible help under present conditions a law permitting the governor to veto parts and portions of items in appropriation bills. This power, the governor said he did not have, as it had been decided by the state supreme court in the decision which annulled several appropriations in omnibus bills and made necessary the special session.

Should Equal Responsibility

"I believe that in making this recommendation, (for the power to veto parts of bills) I am not actuated by personal lust for power. Either the executive should be relieved of all responsibility as to the size of appropriations or he should have power effectually to control the same. If it is wise to place responsibility on the executive, it is also wise to give him the power to shoulder the responsibility.

Honors Request To Keep Hughes Name Off Primary Ticket

Nebraska Official Will Not Allow His Name To Appear

(Associated Press)

Lincoln, Neb., Nov. 22.—Secretary of State Pool will grant the request of Associate Justice Hughes of the United States Supreme court that his name be taken from the Nebraska primary ballot as a republican candidate for president.

Washington, Nov. 22.—The Republican political pot is already boiling, all parts of the country being intensely interested in guesses as to what the next Republican convention will bring forth.

The attitude of Theodore Roosevelt in the coming campaign is the absorbing question here among Republican politicians of every faction. Will he assist in the selection and give his powerful support for victory or will he blast the hopes of party leaders through the opposition?

Colonel Roosevelt has given no intimation as to his course, and his closest friends are silent as the grave.

DRY SUNDAY CAMPAIGN IS OPENED IN PEORIA

Peoria, Ill., Nov. 22.—Into Peoria, the whisky center of the world, the home of an avowed wet candidate for governor and a mayor who has openly refused to close the Sunday saloon, has come a corps of anti-saloon workers, who propose to make the town dry on Sunday.

The leader of this corps is Arthur B. McCold, former attorney for the citizens' committee of Chicago. Following a mass meeting of business men and churchmen here he outlined his plans thus:

"I am going to use essentially the same methods I used in Chicago," he said. "This means warrants, arrests and prosecutions of representative liquor men who violate the law. I have a corps of investigators and I soon will have a record of every violation of the Sunday closing law in Peoria."

"My campaign is to be supported entirely by business men and manufacturers."

The Retail Liquor Dealers' Association has issued orders to its members to sell only to drinkers at the bar.

BIG GAME OF SEASON HERE THURSDAY P. M.

STERLING AND DIXON TO WIND UP SCHEDULES HERE THEN

MORRISON DEFEATS DIXON 13 - 0

The Dixon union high school and Sterling township high school football teams will meet in this city Tuesday Day for the big game of the local team's schedule, and as the day is a holiday it is expected the attendance will be especially large. The Dixon boys are anxious for a chance to avenge a lucky defeat handed them early in the season by the Sterling bunch.

The locals were defeated at Morrison Saturday, 13 to 0. As far as weight and team work was concerned, neither team had the advantage, but Dixon seemed to lack a good man to carry the ball when yards were needed. In Rick and L. Ritchie, the Whitesiders had two men who could gain when team work failed.

Wold and Cahill were the "big noise" for Dixon on the line. The pair broke through almost at will and got the Morrison backs before they could get started. Cahill time and again sifted through the locals' interference and downed the runner for a loss. Brooks was the best ground gainer for Dixon, with Lenox a second.

TURN DOWN HARMON MACADAM WONT DO

STATE HIGHWAY COMMISSION PUTS FOOT DOWN ON LEE COUNTY ACTION.

PAVEMENT ON CHICAGO ROAD

State Road Men Say Chicago Road Must Be Permanently Built.

It is likely that when the board of supervisors meet in Dixon Dec. 8 the matter of designating the road or roads on which to expend state aid money will again be taken up with a possibility of rescinding action taken at the September meeting when by a vote of 12 to 11 it was agreed to expend part of the \$21,000 appropriation on route No. 14 beginning at the east corporation limits of the village of Harmon and extending east until one-half of the money was exhausted and the remainder on route 5, beginning at the Northwestern viaduct on the Chicago road and extending as far south as the funds permit. It was the general sentiment of the board that the roads should be constructed of macadam or gravel as concrete or brick were too expensive and it would require too many years before all the main traveled roads of the county could be improved.

Objections Filed.

Much dissension has arisen as to the roads as designated by the board on which to expend the state aid money and objections were filed with the state highway commission. As a result the commission sent the state superintendent here to investigate. The report he made to the commission is not in harmony with the selection made. The commission contend that the road east of Harmon is not a main traveled road and the number of people benefited would not be nearly as great as on other roads designated as state aid roads. The Chicago road is one of the main arteries in the country and hence should be constructed of some material such as brick or concrete in order that it might withstand hard usage. There is enough macadam now on the stretch of road selected by the supervisors to improve that by plowing it up and grading and there would be plenty of macadam for a base on which to lay the brick. The commission further recommends that steps be taken to start work on expending some of the state aid money in the way of improving the Lincoln highway through the county, as many of the other counties through which the highway runs are doing.

INJURED DETECTIVE AT CRITICAL STAGE PNEUMONIA SETS IN

FAMILY OF W. L. FAIRWEATHER ARE WITH HIM AT ROCHELLE HOSPITAL

WOMAN NOT CHESTERS WIFE?

Letters Show She Was Apparently Maude Yantis, A Love Character

(Special To The Telegraph)

Rochelle, Nov. 22.—William L. Fairweather, of Chicago, the special agent for the Burlington, who was mortally wounded by Robert Ford Chester, in Friday's pistol battle, is still alive. He passed a fairly good night at the Lincoln hospital. The bullet which struck Mr. Fairweather in the neck took a downward course, grazing the wind pipe, passing through a portion of the lungs and through the fourth rib, and lodging in the muscles. His wind pipe leaks a little and the wound in the lungs has brought on pneumonia. Physicians are making a heroic fight to save his life, but the outcome is still in doubt. "Red Monroe" the wounded member of the Chester gang is recovering. Nothing serious has developed in his case. Mr. Fairweather's wife, son, and daughter are at his bedside.

Chester, the reputed leader of the gang, was trailed to Creston by bloodhounds and an armed posse of 25 men Friday night. His trail was fresh and authorities believe if the dogs had been secured an hour earlier they would have gotten their man. Chester apparently hid in Orlando Reed's barn on the eastern outskirts of the city till dusk and then walked by a circuitous path that crossed the Lincoln highway at the Graham farm to the highway a mile or so north and in to Creston. The dogs lost the scent at the Creston. Here the bandit undoubtedly caught a freight for Chicago where he probably joined his friends.

The woman in the case, who posed as Mrs. Robert Chester, but from letters and papers in the house apparently is Maude Yantis, an alleged Chicago levee character, was given a hearing municipal court before Justice E. L. McConaughy, Saturday afternoon. She was bound over to the January term of the grand jury or \$1,000 bonds which she was unable to furnish. She was taken to Oregon.

SOIL ASSN. MEETING POSTPONED TO DEC.

BAD ROADS KEPT MANY DIRECTORS FROM ATTENDING MEETING SATURDAY

Inclement weather and bad roads kept many of the directors of the Lee County Soil Improvement association from the meeting held at Amboy Saturday afternoon, and as a result a quorum was not present. Accordingly the meeting was postponed until Monday, Dec. 6. It is expected that at that time definite arrangements for engaging a soil expert for this county will be undertaken, and as the services of the expert will be rendered only to members of the association the directors are expected to bring in many applications at that time. Informal reports indicate that the association now has 335 members. The desired number is 450.

KILLED IN GARMENT STRIKE

Young Man Clubbed to Death in Mistake for "Scab."

Chicago, Nov. 22.—The second life sacrificed to violence in the garment makers' strike was snuffed out when Michael Guskowski, a young union tailor and a bridegroom of four months, was clubbed to death in front of a saloon at 1801 West Division street by fellow unionists out on strike.

Guskowski was mistaken for an employee of a nonunion shop and a strike breaker.

Contractor Mark D. Smith went to Ashton this morning with his crew of workmen to do some mason work.

Promptly at 2 o'clock the bridal couple, of fifty years ago and their party, led by a little girl strewn roses before them, entered the hall to the wedding march, and took the places provided for them and their family. After they were seated the president of the Circle gave them words of greeting and wished for a long continued happy life together. Included in the program were a number of original poems, among them the one below:

THE GOLDEN WEDDING OF
Mr. and Mrs. Seth Thomas,
October 26, 1915.
Away back east in Illinois
When you and I were young,
From north to south the battle cry
Was heard on every tongue.

When troops were marching bravely on
Intent to meet the foe;
Then mothers' hearts were torn with fear
By daily news of death and woe.

"Old Glory's" stars were dimmed with blood,
The nation shook from shore to shore;
On sea and land the treacherous foe,
And maddening sound of cannon's roar.

Then, you, a boy, a beardless youth,
Went forth—but not alone.
A father marched beside his boy—
No mother left at home.

Her weary hands long since were dust,
No mother gave you her God-speed
To her was spared the untold grief
To give her child for Nation's need.

But there was one who watched and wept,
That little girl you left behind,
The little sweetheart of your youth;
Ah, Fate to her was very kind!

For, after years of deadly strife,
Where thousands fell from shot and shells,
Her "boy in blue" came marching home,
Came marching home to wedding bells.

Now, fifty years have come and gone
Yes, fifty years this very day,
You vowed together, hand in hand,
To "love and honor and obey."

(Now we who know these dear old folks
Have not the slightest doubt
That she obeyed and he obeyed,
'Twas change and change about.)

And now adown the stream of life
Your days are gliding swiftly by,
Your thoughts oft turn to days of yore;
For by-gone joys you often sigh

But, mourn not for those vanished years;
Go onward toward the setting sun.
You know the best of all the day,

From linoleum you'll see
Gold Dust causes
the dirt to flee.

One reason for the
great popularity of
Gold Dust is its
activity.

It dissolves quickly in
hot or cold water, and
purifies in addition to
cleaning.

Millions of housewives are using Gold
Dust regularly for cleaning everything
from linoleum to the choicest silver,
and woodwork. A tablespoonful dis-
solved in a pail of hot water is the
recipe for proper use.

GOLD DUST

When darkness falls, and duties
done.

We fold our hands and sink to sleep,
To rest—sweet rest. And so we
pray
Your coming days be best of all,
And strength be given for every
day.

God has been good! No death came
nigh!
Your children all can gather near
To cheer you off from time to time,
And friends and kindred, near and
dear.

Then, blessings on you evermore!
God speed you on your way!
So say we all,—your friends, a host
On this, your golden wedding day.
—Clara B. Munroe.

U. S. WILL SUFFER FROM FOREIGN WAR.

At a recent meeting of the Men's club of the local Y. M. C. A. a Mr. Farwell, of Chicago, made an address on financial conditions, forecasts, etc., and one of the big points emphasized in his talk was the fact that the "World Wealth" maintains an equal level nearly all of the time—that is, the wealth of the United States, and of England and of Germany, France and Russia are all about the same when times are normal. Right now the scales are tipped in the favor of this country and the gold of Europe is pouring across the Atlantic and the treasuries of this nation are being filled to overflowing. But when the war stops, the money wealth of the world must again seek its level, according to the past history of finance, and that means that the high tide of gold that is swamping the U. S. now will recede rapidly until a general level has been reached. Mr. Farwell predicts that after the close of the war this nation will see a period of the worst business depression the country has ever experienced.

In his latest New York financial letter Henry Clews bears out these statements in this way:

Our financial outlook is undoubtedly promising, but contains many difficult and unprecedented problems, practically all of which are an outgrowth of war. The violent derangement of our foreign trade, the sudden and overwhelming demands for munitions, the undreamed application for American funds and the consequent secondary disturbances affecting shipping, railroads, factories, labor, commodities, exchange, money, securities, etc., are too familiar to require mention. No line of business has entirely escaped the effect of the European cataclysm. Some of these problems have already been successfully faced. Others are still in prospect and will require cool and careful action. Although our financial and industrial resources have already been mobilized upon a war basis, there still remain two great contingencies yet to be faced; either an early peace, or prolongation of the war, the former may be within the probabilities. A severely disastrous and costly winter may be influential in that direction.

Should the war continue indefinitely, it will have a twofold effect. At first it would mean a prolonged demand upon the United States for war materials and food products, such as has been experienced for the past six months. Temporarily we should gain by such a result, but eventually we should lose by a long war and it would be dangerous self-deception to expect that the United States could permanently profit by a struggle ended only by exhaustion. Although this country will undoubtedly feel the harmful effects of the war less than any other, and will actually benefit in some respects, we cannot hope to avert the reflex action of destruction of millions of men and billions of property, the present cost of the war being at the rate of about \$30,000,000,000 a year. When the war is over we may secure some temporary advantage by selling machinery, constructive materials, etc., to fill the gap until the devastated regions are able to supply themselves; but subsequently our exports must be affected adversely by an inevitable diminished buying power of all the belligerents. As to imports, it is hardly likely there will be such expensive dumping as feared, for the simple reason that Europe will have little surplus for export, and for some time after the war labor in the belligerent countries will be largely drawn into reconstruction work, while the wastage of capital must restrain foreign enterprise for years to come. Following the war a severe struggle for recovery of the world's markets must be expected between Germany and Great Britain. That contingency, however, is some distance away and during the interval the United States has a splendid opportunity for securing a foothold in foreign markets, which it is not overlooking and which if properly developed will be an important outlet for our rapidly expanding industrial energies.

Evidently, therefore, a prolonged war will have both its gains and its losses for the United States. Should the war come to an earlier end than expected, especially in view of rumored peace movements, the results would be vastly better for us than its continuance. We might lose some profitable war contracts, but on the other hand we should gain infinitely more by the stoppage of waste and the restoration of normal activities before the much dreaded exhaustion sets in; not to speak of a higher motive for peace, which is to stop the awful carnage that is drenching Europe in blood. With the coming of peace a new set of problems will have to be met. Our financial demobilization would be in order, and many industries which have suffered by the struggle would be permitted to return to their normal relations, a vastly more encouraging outlook than the inflationary profits from war orders, which thoroughly demoralize capital and labor alike.

Greatly reduced prices in radium are prevailing. It has been discovered that the stuff can be produced by the United States for only \$37,000 per gram. Ain't that nice? We must have a pailful to keep around the house.

Dramatic Notes

THE PRINCESS THEATRE

Tonight the Princess theatre will show a beautiful drama entitled "The Soul of Pierre" taken from the celebrated novel by Georges Ohnet with Franklin Ritchie, Gretchen Hartman and Viola Smith in the leading roles. This is a romance of a young artist who seeks his sweetheart and wins her after many thrilling encounters in intrigue and adventure. The last reel on the bill is a Vitaphone comedy entitled "Unlucky Louey," with Mr. and Mrs. Sidney Drew in the leading roles, a comedy in which Louey tries his hardest to get back to his prison cell, but despite his efforts he winds up by being appointed magistrate and he makes the best of it.

FAMILY THEATRE

An excellent vaudeville program will open at the Family theatre this evening and will consist of Komel, American Jap, illusionist, Malray Sisters, singers and dancers; Fred

OPERA HOUSE

The big special feature photoplay at the Opera House tonight is "The Battle of Manhood," a thrilling, throbbing love story of beauty and intensity, in six parts. The story is as follows: The father drinks like the proverbial fish. That he lives despite his orgies is a physical feat and inspires no imitation. His friend, a talented lawyer, goes to the gutter. The dawn of a new tomorrow breaks upon him. He comes to the top like a rubber ball. The father has two sons. Both love the same girl. The loser, a despicable character, jealously demoniac, determines to work upon his younger brother's inherited weakness for drink and finally lands him upon the physical and moral rocks. But love and intelligence triumph in the besotted mind of both father

ALLEGED SCHEME WILL BE BARED

History of Teutonic Propaganda to Be Made Public.

DUMBA NAMED AS PRINCIPAL

Ex-Ambassador from Austria Said to Have Engineered Colossal Conspiracy Against Industries in United States in Favor of Germany and Central Powers.

New York, Nov. 22.—The skeleton story of the criminal part of the Teutonic propaganda in this country with the names of the master minds who originated it, the men who financed it, the executives who supervised parts of the work and many of the German or Austro-Hungarian agents who carried out their orders is likely to be told to the federal grand jury within a few days, if in fact part of the plot has not been presented to it.

It deals with a conspiracy against the industries of the United States munition plants, arms factories and other plants that have been filling orders for the allies. It treats of plans to cripple many factories and, if suggestions are correct, it may deal with still graver affairs.

Sensational Evidence in Hand.

The evidence that has been gathered from the letters which Captain James F. H. Archibald carried for Dr. Constantin Dumba, dismissed Austro-Hungarian ambassador to this country, Captain Von Papen and other diplomatic agents, forms only a small part of the case now being worked up. The charges made by Dr. Joseph Goricar, ex-Austrian consul in this country, against Count Von Bernstorff, German ambassador to this country, Captain Boy-Ed and against Dr. Alexander Nuber Von Perked, have been regarded as sensational, but the evidence which Dr. Goricar can present is hardly needed for the substantiation of the details of the alleged conspiracy.

Should indictments be returned—and there seems to be little doubt of that—the details will come out in full. The department of justice has been working on the case for months and the evidence is said to have been submitted to President Wilson. Delay in presenting the evidence to a grand jury is believed to have been due to the desire of the President to make sure of every specific charge and to have each allegation supported by uncontroverted evidence.

Dumba Is Central Figure.

The great genius in the propaganda, it is said, was Dr. Dumba. It was because of his rare gifts that he was selected by the central powers for the task of taking steps here that would cripple the enemy's preparations for the fighting in the trenches.

Germany, it is said, was to furnish the money. Dr. Goricar already has charged that Count Von Bernstorff had at least \$40,000,000 at his command; Franz Rintelen, the mysterious German who spent many months in this country, is said to have boasted that he could command \$30,000,000 for any necessary work.

Funds have been traced with the utmost accuracy. Evidence has been dug up to show how money travelled through various channels to men who have done work in behalf of the Teutonic cause.

Wallace Seybert spent the day in Chicago on business.

Fred Long of Walnut was here to day to attend the funeral of Samuel Wolford a comrade in the Spanish-American war. Mr. Long was a member of Major Tourtellott's company from LaMoille.

POLITICAL POTS ALREADY BOILING

Continued from Page 14

on the subject. But it is significant that the colonel has begun to counsel with his friends and something is expected from him soon.

Colonel's Probable Stand.

Of these facts there is little doubt: The colonel will not enter the primaries for the nomination.

He will not support a candidate selected by a Republican convention from among the standpoint or reactionary element of the Republican party.

But can he be induced to harmonize with Republican leaders and factional differences, help in selecting a Republican candidate and throw his old-time vigor into a campaign in support of that candidate? That is what Republican leaders here of all factions and shades of Republican belief are hoping, and many of them will make important sacrifices to bring that condition about.

More and more forcibly it is being driven home to all Republican leaders that hope of Republican victory next fall lies in a unified party capable of giving enthusiastic support to the candidate named by the nominating convention. It is believed that such a candidate can put up a winning fight against President Wilson, who it is generally believed will be the Democratic standard-bearer.

Warning to Standpats.

"Wilson will be hard to beat," is the warning cry from New York, New England and the great voting states of the middle West, like Illinois, Iowa, Ohio, Indiana, Michigan and Wisconsin. The warning gives caution against over-confidence, growing out of the belief that there will be a heavy loss to the Democratic ticket from German and Irish votes.

Republican leaders will not hazard a guess as to who may be the Republican standard-bearer. To many of them it seems that the man to be selected finally has not been named. Applying process of elimination used by all practical politicians they cannot see how either of the several candidates now before the Republican voters can get the nomination. At best each holds the position only of favorite son of his own state and some of them will have a contest to get this indorsement.

Hughes Kills Hope.

Nebraska's boldness is dragging in to the contest without his assent Associate Justice Hughes of the supreme bench attracted the attention that such a coup was certain to do. But the action of Mr. Hughes has put a temporary chill on the hopes of many of his friends.

But Mr. Hughes is not out of the Republican mind by a large majority. He may get himself off the Nebraska ticket, but he is being talked of here as the one best bet of the Republican party in its chance for success against Wilson and all schemes to circumvent him and to force his nomination are being discussed.

Roosevelt Not to Support Root.

New York, Nov. 22.—A close friend of Colonel Roosevelt told a reporter that there is no possibility that Colonel Roosevelt will support Elihu Root if Mr. Root is the Republican nominee for president next year. "The situation is just this," said this friend. "The Progressives will not support Mr. Root and Colonel Roosevelt will not support him because the Progressives will not."

The two little sons of Mr. and Mrs. Ward Hall have been quite ill for the past fortnight.

"The Store That Sells Wooltex"

"Dressing" For Thanksgiving Day

"Turkey", "pumpkins" and "cranberries" are all very important features of a genuine Thanksgiving Day. "Good Clothes" however, are as important a feature and will make you feel "fit" for the occasion. You'll enjoy the day more if you feel well dressed—if you "look the part" and know it. The day of considering your appearance cost on the "expense" side of the ledger is past. Every cent spent in adding to your correct appearance is an "asset." Good clothes are worth while—they are the first thing that are considered in "sizing you up." It's a poor policy indeed to place yourself in a wrong light with your fellows by wearing clothes that are not a compliment to your position in the world.

Where are you going to go in order to be sure that the clothes you buy are the right kind for you? Come to our store—a "standardized store," where only such goods are handled as have won the foremost places in their respective fields. Selling what is acknowledged by actual test to be superior is a part of our policy. Featuring Hart, Schaffner and Marx Clothes, Stetson Hats and other lines of comparative merit shows how well we carry out that policy. We don't believe in experimenting on you. We offer you goods that have passed through the experimental stages and that are now the best, safest and most economical in the long run.

How are you going to look on Thanksgiving Day, well dressed, or not.

You'll Look "Dressed up" in one of our Standardized Suits

Bryan Is President, Mary Pickford Shot For Espionage

(Associated Press)

Minneapolis, Nov. 22.—To test the general knowledge of junior and senior students at the University of Minnesota college of education, a list of fifty questions covering a rather wide range was submitted, and many of the answers, just made public by officials of the University, are creating considerable merriment on the campus today.

William Jennings Bryan is now president of the United States, Mary Pickford was recently shot to death by German officials after being convicted of espionage, Grover Cleveland and Woodrow Wilson are among living former presidents, A. P. Eberhart is governor of Minnesota and St. Paul received the ten commandments, according to answers submitted to Raymond A. Kent, assistant professor of education, who conducted the test.

Three students declare Sherman is vice president of the United States, one gave Fairbanks the honor and still another had Secretary of State Lansing holding the office.

TO CONSULT SPECIALIST

Mr. and Mrs. Harry Roe and daughter Winnifred will go to Chicago tomorrow where a specialist will be consulted in regard to Miss Winnifred who will later undergo an operation.

ANNOUNCE BIRTH

Mr. and Mrs. Noah Adams, formerly of Dixon, but now of Haswell, Colo., are the happy parents of a baby daughter, Veria Theo, born to their home Wednesday, Nov. 10th. Mrs. Adams was formerly Miss Nettie Bennett of this city and Mr. Adams is the son of Jacob Adams of Pine Creek. They removed to Colorado about a year ago.

Much confusion was encountered in attempting to locate the "Golden Horn," some students placing it on Wall Street and others fixing the location near Gibraltar.

A few answers gave Edison credit for inventing the telephone and in fixing the temperature of the normal body figures ran from 60 to 110 degrees. Also there was a wide diversity of opinion as to the corresponding weight of ice and water.

One question put to the students was to name the motto of the United States and this brought forth interesting answers, which included "United We Stand, Divided We Fall," "In God We Trust," "Union Forever" and "Millions for Defense and Not One Cent for Tribute—In God We Trust."

Prof. Kent, who is also principal of the University high school, submitted the questions to his high school pupils with a view to reaching a comparison. The high school average was 18 per cent lower than the university.

Harvey Sindlinger left for DeKalb this morning after an over Sunday visit in this city.

ELECTION LAW CENTER OF ASSEMBLY FIGHT

Continued from Page 11

Where responsibility is placed, there should the power be placed to control.

Primary Laws

Gov. Dunne pointed out some inconsistencies in the state primary law and asked that they be eliminated by proper amendments at the special session. He asserted that in one section of the primary law it was declared that delegates to national conventions must be elected at the primary by popular vote, while in another section of the same act it was provided that such delegates must be elected at congressional conventions.

The message concluded by calling attention to a bill which would prevent, he said, the holding up of appropriations for the payment of state employees, as was done in the Ferguson suit the sustaining of which by the courts annulled certain appropriations and made necessary the special session. The governor said that he had prepared a bill, regulating the practice and procedure in cases in which any taxpayer sought to prevent the payment of state money under appropriations alleged to be illegal or unconstitutional.

To Stop Injunctions.

"The bill provides," read the message, "that before a citizen and taxpayer can file a bill of complaint and procure an injunction, tying up the state funds, he must first apply to the circuit court of the proper county for leave to file his bill of complaint and the circuit court will order notice to be given to the attorney general and to the defendants and set a day for a hearing, within a period of ten days, and on such hearing, if the court is satisfied that the cause of action is a meritorious one, the court may grant leave to file the bill of complaint."

After reciting some other provisions of the bill, the message continued: "This will not deny any citizen all the privileges which he now has to question the legality or constitutionality of an appropriation. It does not close the door on any meritorious cause of action, but it simply protects the state against trivial or causeless actions without any merit in them and provides for a prompt trial of the case when it is started. The attorney general now has the power to institute suits of this character and that right is not interfered with in this bill but the same provisions relative to the prompt trial and disposition of the case applies to the suit instituted by the attorney general, the same as a suit instituted by a private citizen."

REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's Vegetable Compound Saved Her Life and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling, inflammation and congestion, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleepless nights, and had neither strength nor energy. There was always a fear and dread in my mind, I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all is pleasure and happiness in my home."

IMPRISONED IN ROOM FOR TWELVE YEARS

Young Woman Loses Voice and Becomes Living Skeleton.

Aston, Md., Nov. 22.—So long isolated from mankind that she has lost the power of speech, Miss Grace Marshall, twenty-eight years old, is to be taught all over again how to talk. Physically a wreck and mentally unbalanced, the young woman has just been released after twelve years' imprisonment in the home of her father, Frank Marshall, a farmer near St. Michaels. During several years of that time, if not all, she was confined to a small, unventilated, unlighted and unheated room.

In spite of the fact that she had been reduced by imprisonment to a living skeleton of fifty-seven pounds; that she has forgotten how to talk, and almost how to think, Dr. Davidson said he believed she would live, and that her mind would respond to human treatment. Her father and mother say they imprisoned her because she was insane.

San Francisco, Nov. 22.—Samuel Gompers of New York city was re-elected president of the American Federation of Labor at the concluding session of the annual convention here.

All the officers of the federation were re-elected almost unanimously.

SKYSCRAPERS

Skyscrapers are indigenous to the American zenith and are found nowhere else. They are regarded with great contempt in Europe, because they are inartistic, like presidents and captains of industry. But there is a suspicion that Europe scorns all of these useful articles principally because Americans thought of them first.

The skyscraper was invented in Chicago about twenty-nine years ago. It was discovered that by constructing a twenty-story steel skeleton, sticking two or three stories into the ground and draping the rest with an overskirt of brick, stone or terra-cotta a very useful building could be produced. The first great skyscraper was the Masonic Temple in Chicago. It is twenty-one stories high and was once the wonder of the world. Nowadays New Yorkers frequently stumble over it while looking for really tall buildings.

Skyscrapers are now built in one, two, three, four and five dozen story sizes. In New York the first three sizes are out of style, and are being torn down to make room for really high buildings. The tallest skyscraper in the world is the Woolworth building in New York, with fifty stories, while the city is also threatened with

I. N. G. TO GET SIXTY HORSES

Federal Government to Help Equip Six Field Batteries.

Springfield, Ill., Nov. 22.—Sixty artillery horses are being selected by the federal government for the six field batteries of the Illinois national guard.

Adjutant General Frank S. Dickson has just learned that his requisition for ten horses for each of the batteries had been allowed. The government will provide forage for the horses and pay the necessary attendants, leaving the state to pay for only the stabling. Thirty-two horses are needed for a battery, but with ten trained horses, army officers believe drill will be greatly simplified, for the hired animals soon can be taught to follow their train fellows.

DIRE DISTRESS

IT IS NEAR AT HAND TO HUNDREDS OF DIXON READERS.

Don't neglect an aching back. Backache is often the kidneys' cry for help.

Neglect hurrying to the kidneys' aid. Means that urinary troubles may follow.

Or danger worse than kidney trouble.

Here's Dixon testimony.

Mrs. C. Charlton, 516 Lincoln avenue, Dixon, says: "I had been suffering for a long time from pains across my back and sides. The trouble was particularly severe at night and early in the morning. When I bent over to lift anything, I was hardly able to straighten up again. My kidneys were inactive. Finally I used Doan's Kidney Pills, procured from Leake Bros Co.'s drug store and it didn't take them long to give me relief."

The above statement was given on May 1st, 1912, and when Mrs. Charlton was again interviewed on January 21st, 1915, she said: "I use Doan's Kidney Pills whenever my back gets lame. Another of my family has also taken them with the best of results."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Charlton had. Foster-Milburn Co., Props., Buffalo, N. Y.

BEST MINNESOTA BARGAIN.

About 625 acres of the best land in this state as smooth as a floor and cut on the north by good river (full of fish), and cut on the south by big ditch, just completed, and this ditch is about eight feet deep and shows the best of good yellow clay clear to the bottom. The top soil is the best black sandy loam to be found in Minnesota. The water is pure, and never failing well on the place, which is occupied by tenant. This farm is as smooth as the best of the Red River Valley it should not be confused with same, as this is near the highest point of land in the state.

There is fair house and also other buildings with some fenced in pasture and also some field in crop, and all the land desired for crop can be broken with tractor and as this is new land one crop of flax will pay for it at the bargain price of \$25 per acre.

Five thousand dollars cash will handle the deal and it is near direct line to Duluth, which is the best market in the Northwest.
